PRIMARY SCHOOL

In Primary School we imbibe in our students a love of learning extending far beyond the reaches of the classroom walls. Developing critical thinking skills, building team spirit and inculcating good behaviour are important aspects and shape our academic programme.

Instilling a sense of responsibility towards our environment as well as tolerance and respect towards all peoples, religions and cultures are factors which are of great significance to us as well. In fact, we encourage interaction and exchange with the people of our host country India, as also in the Asian region.

47 students currently attend classes 1 to 4.

Class 1: 12 students
