## **SECONDARY SCHOOL LEVEL I and II**

In Secondary School we consolidate all that the children have learnt during their primary education. To be self-reliant in their work, to articulate their thoughts as well as to work methodically, competently and creatively are indisputable key qualifications. We teach our children to independently work on, evaluate and classify all that they have learnt in school as we strongly believe that this is the best way to prepare them for professional success in their later lives. Developing critical thinking skills, building team spirit and continuing to encourage positive behaviour and social responsibility are important aspects and shape our academic programme. 53 students currently attend Secondary School.

### **LEVEL I**
