SECONDARY SCHOOL LEVEL II

At the DSND, we prepare our students to appear for the German International *Abitur* Examination (DIAP). With this diploma the students acquire the normal German *Abitur*, with the added bonus of a high proficiency level in English. They have been taught at least two subjects in English and up to 50% of this *Abitur* examination can be in English. This examination prepares DSND students to be successful in a globalized world where a good command over foreign languages, especially English has become a must.

Programmes offered

Grade 10: Introductory phase;

10 compulsory subjects

Examination at the end of the 10th grade and promotion to the qualification phase if this is passed.

Grades 11 and 12: Qualification phase

Preparation for the *Abitur* examination

Subjects: German, math, physics, biology, English, French, history, geography, art, sports, ethics

Geography and history classes are conducted in English

Abitur examination:

3 written subjects with German being one of the compulsory subjects

2 oral subjects

Classes are held up to 15:30 hours everyday.

A library with the facility to work on computers is available for individual study by students.
