STUDENT REPRESENTATIONS DURING THE SCHOOL YEAR 2009/10

What would a school be without its students?

It wouldn't even exist, right?

Whom is the school actually meant for? For the students, of course!

Logically then, students would know best how they'd like their day at school planned.

We, the Students' Council, are there to receive proposals, creative ideas, suggestions for improvement, accommodate the wishes of our fellow-students (no, the maths class cannot be scrapped!!) and to do our best to have all these implemented.

We then discuss these issues with our guidance counsellor and work out what we can implement ourselves and where we would need help.

We organize sales at school or movie afternoons for all students.

We, the class captains and students' representatives, hope that the students of our school are happy with our work. We thank them for their trust and confidence.
